Grads Lawson, Hedges Take Home Top Honors

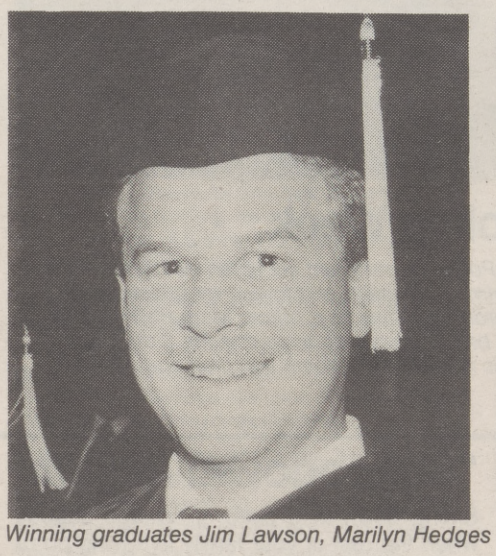

School of Dentistry graduate James Lawson, DDS, and School of Pharmacy graduate Marilyn R. Hedges, PharmD, both received top honors in recent commencement ceremonies.

Lawson, who hails from Los Alamitos, CA received the Francis A. Sooy Chancellor's Cup, the highest award given to a graduating dental student for both academic excellence and professional conduct. He will be doing a one-year general practice residency at the San Diego VAMC in La Jolla. Last month, Lawson received the Alpha Omega Fraternity Award for the highest overall scholastic average (an outstanding 4.0!), and was admitted to Omicron Kappa Upsilon, the national dental honor society. He received his BS in chemistry and biology in 1984 from the University of the Pacific.

A resident of Sacramento and '84 graduate in biology from UC-San Diego, Hedges was honored with the Bowl of Hygeia for exemplifying the qualities of an ideal pharmacist in action, thought and attitude. The 1987-88 executive director of the Associated Students of UCSF, Hedges also is past president of the Associated Students of the School of Pharmacy. She will be doing her residency at UC-Davis.

Runners-up for the top pharmacy award were Thomas Bookwalter of San Francisco, Karen Nabors of Taft, CA, Dean Fredericks of San Joaquin and Kimberly White of Richmond, CA.

In all, 98 students received their PharmDs during Pharmacy's commencement where media doc Dean Edell gave the keynote address. Dentistry graduated 96 dentists and 18 dental hygienists.

Winning graduates Jim Lawson, Marilyn Hedges

Mikkel Aaland

George Washington High beat Lowell and took home the trophy and the $1,000.

High, Middle School "Future Scientists" Teaching Contest Co-sponsored by UCSF

Amid squeals of joy and lots of hugging, five George Washington High School students were awarded first prize in the high school division in a science and health teaching contest, sponsored by UCSF in cooperation with the SF Unified School District. Lowell High came in second.

The winning students, juniors and seniors Ian Clunies-Ross, Claudine Yue, Sandy Sun, Irene Chan and Michelle Wong, won for their course on "mimicry"—how insects and animals change their appearance to protect themselves from predators. The $1,000 prize money will be shared by the students ($100 each), their science teacher, Emil Fogarino ($250), and their high school ($250 to purchase science equipment).

The first place trophy and $1,000 prize in the middle school division went to A.P. Giannini eighth graders Anna Sverbilov and Lily Wong, who taught third graders everything they wanted to know about energy —solar, wind and water. Their science teacher, Erla Hackett, and the school's science department each received $250.

The awards—eight in each division—were presented at a special campus ceremony on June 7 by Chancellor Krevans and SF Schools Superintendent Ramon Cortines. Before the ceremony, the 70 contest finalists—or "future scientists"—were treated to tours of our biochemistry research laboratories where they peered through microscopes and witnessed science and high technology in action. Award money came from the Department of Biochemistry's Gordon Tomkins Fund.

The aim of the contest was to get students to experience the fun of science and health and examine a subject in depth.

The teaching contest, which will be an annual event, was just one part of the unique Science Education Partnership Program, launched this year by UCSF scientists and San Francisco science teachers to help maintain quality science education, according to Stanton Glantz, PhD, of the CVRI, who coordinated the contest.

The brandchild of Bruce Alberts, PhD, UCSF professor and chair of biochemistry, the program matches a public school teacher with one of the some 80 UCSF faculty, postdoctoral fellows and graduate students, who work together to make sure young people keep pace with a world whose understanding of basic life processes and mechanisms for conquering disease is changing rapidly.

Model Environmental Health, Safety Program

State Health Director Kenneth W. Kizer, MD, MPH, and Chancellor Krevans announced in Sacramento the implementation of a model program for radiation safety and comprehensive environmental protection at UCSF.

It also was announced that the state had renewed UCSF's broad scope license to use radioactive materials for biomedical research and patient care.

"We have worked with UCSF to help them make this a model program for research universities in California and elsewhere," said Kizer. "I am assured that Chancellor Krevans is determined that UCSF will continue to be a safe place for its staff, faculty and students as well as for its neighboring communities."

A key element in the program is what may

(continued on page 2)

"Only Means of Conservation is Innovation"

This will come as no surprise: California is in another drought.

This also should come as no surprise: Our campus—one of the largest water users in San Francisco— intends to make a strong effort to save water. And as the above headline quote by conservationist Peter Drucker intimates, we all have to make some changes.

All campus employees are asked to conserve this precious commodity as much as possible, without sacrificing quality patient care, hygiene and environmental safety. Here's what the campus is doing:

- Physical Plant is inspecting all water outlets, valves and control devices for leaks.
- Landscape watering has been reduced and all walkway and loading dock washings have been discontinued.
- All campus shower heads are being inspected to ensure that all water restrictions are intact. (Also, remember to turn the shower off while you're soaping up!)
- All steam lines are being checked for leaks.
- All defective flushometers with low volume efficiency, and all defective spring-loaded valves on our distilled water systems are being replaced.

Departments also are being asked to do the following:

- Whenever possible, discontinue using water-cooled space conditioning equipment.
- Use paper and plastic dishware and utensils in all food areas.
- Ask Physical Plant to inspect all your water-cooled air conditioners to make sure all valves are operating correctly. (Send a Physical Plant requisition stating your request to Box 0894.)
- Install all water-cooled equipment on condenser water loops where available (you people in Moffitt and Long know what this means).

If you have any water conservation tips, why not share them with Rob Purcell, manager, Building Maintenance Division, x65396.

John Muir Silver Shared by Two at UCSF

UCSF pharmacist Linda Bernstein and David Watts, associate clinical professor of medicine, shared a second-place silver award at the recent John Muir Film Festival for a series of one-minute video health messages.

Executive producer Watts, who reports on medicine for KTVU and KQED TV and hosts various physician-oriented shows for Lifetime Network, and co-producer Bernstein, who hosts a weekly half-hour health show on KFRC radio, won in the category of "public relations/awareness, short," for three 60-second messages aimed at young children. Each musical spot features the Pickle Family Circus.

UCSF will host its own screenings of various winners in Toland Hall on the following dates:

Mon., June 27, noon-1 p.m.:

- Three one-minute health messages for young children with the Pickle Family Circus. Produced by David Watts, Linda Bernstein, Stephen Gilford.
- "AIDS: A Report." A report describing what is known of the origins of AIDS and the heterosexual nature of the disease in Africa.
- "Ten Good Things About Barney." When a

(continued on page 2)

State Budget Up in the Air

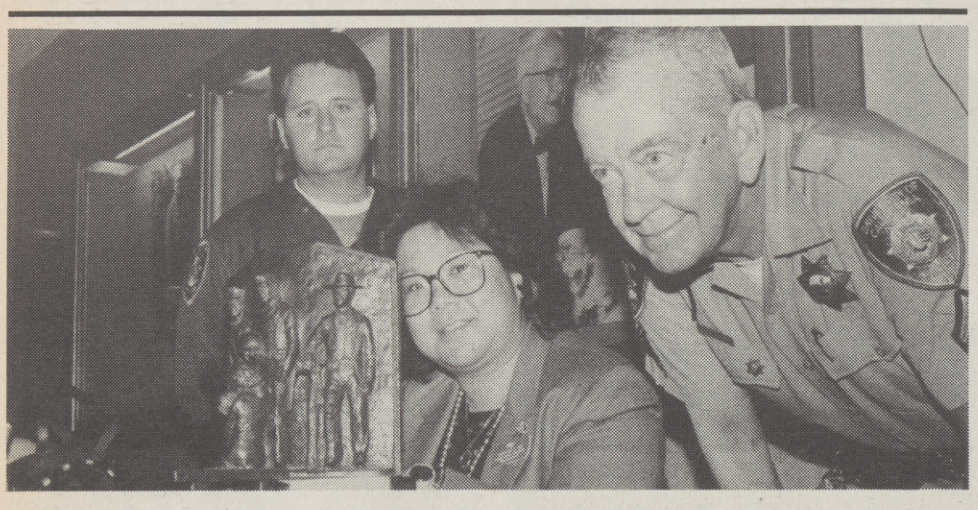

The Governor has pulled back his budget because of a disagreement with the state legislature. All UC items, including faculty and staff increases (all merits too), are up in the air at this writing. It is not known when budget decisions will be made.

UCSF, Mount Zion Partnership Studied

The Joint Program and Planning Board of Mount Zion Hospital and Medical Center and UCSF has recommended in principle a proposal to solidify the partnership that the two institutions began in December 1984—subject to the results of a feasibility study and ultimate approval of the Mount Zion Board of Directors and the UC Board of Regents.

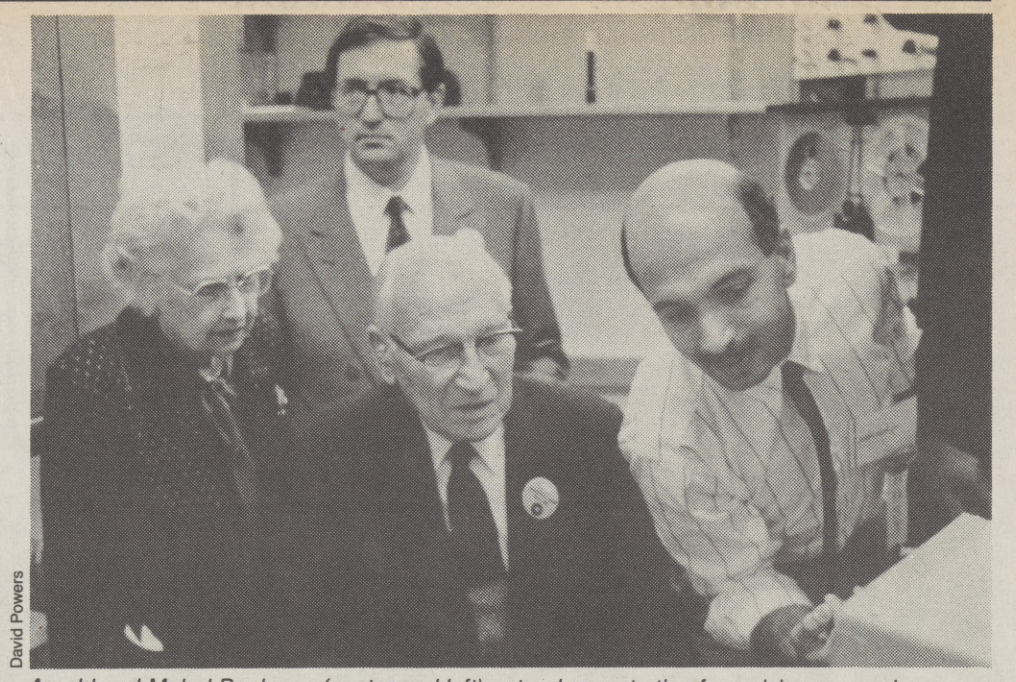

The terms of the partnership are spelled out in a letter of intent which has been circulated to medical staff and board of directors of Mount Zion and to the faculty and administration of UCSF for review and comment. Under the proposed agreement Mount Zion would maintain its Board of Directors, and would continue to have an independent medical staff and board which would fulfill all of the traditional medical staff requirements outlined by the Joint Commission on Accreditation of Health Care Organizations and state code.

UCSF would assume overall programmatic and academic authority and fiscal responsibility for Mount Zion. Before the execution of an agreement the parties will undertake a full assessment of financial issues including short and long term liabilities, operating budget projections and future capital requirements, involving an independent firm as part of the evaluation.

Memorial Highlights Police Week

As part of National Police Week last month, our Police Department set up an exhibit in Medical Sciences lobby to give out free pamphlets on crime prevention and to answer questions on what services they provide. Safety program coordinator Chris Yee, officer Mark Phillips (left) and Corporal Bill Hall (right) show a replica of a bronze statue dedicated at the State Capital that week by Governor Deukmejian. The statue is in memory of some 900 men and women who died in the line of duty.

David Powers

Arnold and Mabel Beckman (center and left) get a demonstration from vision researcher George Ayoub during tours of the new vision building before the opening dedication ceremony. In the background is ophthalmology chair Steven Kramer.

A Big Day for Eyes

Hundreds of campus and community individuals attended the opening celebration and the first tours ever of our new Beckman Vision Center and Koret Vision Research Laboratory on June 1.

The actual celebration lasted three days as scores of vision researchers and heads of eye departments in teaching institutions across the US attended a conference on "Ophthalmology in the Year 2020."

The new Vision Center is supported by private gifts, together with more than $1.1 million in grants from the NIH National Eye Institute, totalling more than $14 million. The private gifts included a $3.5 million grant from the Arnold and Mabel Beckman Foundation to establish the Vision Center and a $2.4 million challenge grant from the Koret Foundation for the Vision Research Laboratory building.

The Center, comprised of the new research laboratory and the yet-to-be-built Ambulatory Eye Care Facility and Clinical Eye Research Unit, will eventually consolidate in one facility more than a dozen major research, teaching and patient care programs.

Goodbye Rose

Rose Lee was one of 129 campus employees honored on June 9 for their University Service. Chancellor Krevans presented awards to 92 employees who retired in 1987 and another 37 for having completed 25 years of service. Rose, one of the retirees, had been a staff research associate for 30 years in the Department of Epidemiology & International Health. Celebrating with Rose is her daughter Claire d' Allance, admininstrative assistant with International Students & Scholars.

"Shapedown: Just for Kids"

Sitting down to a plate of cottage cheese when the rest of your family is having pizza can be a lonely and frustrating experience, especially for an obese child.

Now a new UCSF program focuses on weight management for kids by changing lifestyle and eating habits of the whole family. Designed for youngsters 6 to 11 years old, the program is called "Shapedown: Just for Kids."

"Each child is encouraged to take responsibility for his or her own weight, but at the same time parents are asked to set the stage for weight loss by making some changes of their own, such as switching to lighter foods or taking the family on a hike rather than out to brunch," says Laurel Mellin, MA, RD, assistant professor of family and community medicine, who heads the project.

The children's shapedown program is available in the Bay Area through UCSF, and programs are being developed nationwide. For further information call 453-8886.

Model Program *(continued)*

be the first truly comprehensive environmental assessment—with community input—on any campus in the country outside of the National Institutes of Health. Done by an independent company, the program will evaluate the impact, if any, that UCSF research and patient care activities (including the use of radioactive materials) are having on the environment at the Parnassus campus, Laurel Heights and other UCSF sites.

The 18-month monitoring assessment will cost $1.3 million over and above UCSF's $1 million ongoing radiation safety program, and will monitor air, soil and water, not only for the presence of radioactive materials, but also for biological and chemical materials. Noise levels also will be monitored.

The first step of this four-phase assessment began in April to identify the various types of research being conducted, as well as the physical, chemical and biological materials being used in patient care areas and research laboratories on the Parnassus site. It also includes gathering all available information on various types of emissions.

In the next few months, several specific neighborhood areas surrounding the campus will be monitored. The outside consultants then will conduct an extensive analysis of all the data.

The assessment program is being conducted by the Radian Corporation, an international leader in the field of environmental evaluation and risk assessment, in conjunction with the campus Office of Environmental Health and Safety. A similar program has been started on a preliminary basis at Laurel Heights.

New Emphasis for Psychiatry

Samuel Barondes, professor and chair, psychiatry (right), explains some of the attributes of LPPI's new biology laboratory to Irving Philips, director, LPPI child & adolescent service, during opening ceremonies for the lab on June 15. The new lab will be used to conduct basic biological research on brain function and mental illness.

AIDS Walk July 24

Thousands of people will join together to be part of the second annual AIDS Walkathon on Sunday, July 24, starting at the bandshell in Golden Gate Park at 9 a.m. There is no registration fee. Funds for Bay Area AIDS service and education providers (including the UCSF AIDS Health Project) will be raised through collected pledges. For further information call 989-WALK.

Residents Honored for Clinical Excellence

Eight first-year UCSF resident physicians have been awarded the 1987-88 Julius R. Krevans Prize for Clinical Excellence to recognize their distinguished performance in primary care fields at SFGH.

They are: (back row) Donald R. Bohay of Huntington Beach, CA, surgery; Sarah J. Braun of Los Angeles, psychiatry; and Susan J. Spencer of San Mateo, ob/gyn; (front row) Aaron M. Roland of San Francisco, family practice; Eric A. Weiss of St. Petersburg, FL, surgery; and Delfina M. Clinch of Douglas, AZ, family practice. Missing from the photo are James A. Tulsky of Chicago, internal medicine; and Alger B. Chapman of New York City, pediatrics.

The awards were presented at the SFGH medical staff annual dinner and meeting where John Luce, associate professor, medicine and anesthesiology, took over the position of chief of staff from radiologist Michael P. Federle.

John Muir *(continued)*

family cat dies, a mother tries to soothe her young son's broken heart by suggesting he think of 10 good things about the cat.

Tues., June 28, 5:30-6:30 p.m.:

- Health messages by David Watts, Linda Bernstein.
- "Young at Heart." A widow and widower, both in their 80s, meet, court and marry, reaffiming that love and romance can happen at any age. (Academy Award winner for best documentary.)
- "Energy for All Reasons." Program for reducing stress.

Wed., June 29, noon-1 p.m.:

- "Alcohol & Cocaine: The Secret Addiction." Includes research showing damage to brain cells and the body.
- Health messages by David Watts, Linda Bernstein.
- "A Day Away from Stress." Five methods for reducing stress.

Thurs., June 30, 10:30 a.m.-noon:

- A special UCSF Retirees program, featuring repeat performances of "Young at Heart" and "Ten Good Things About Barney." Public invited.

The UCSF screenings are sponsored by the UCSF Campus Tours/Speakers Bureau.

Honors & Awards

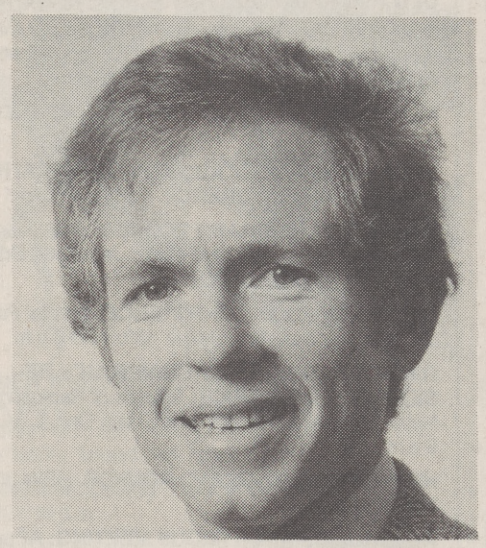

Barry A. Kogan, assistant professor, pediatric urology; chair, pediatric urology service: Winner of the 1988 Jack Lapides Essay Contest Award of the American Urological Association for his paper "Lower Urinary Tract Function in the Sheep Fetus: Studies of Neural Control & Pharmacologic Responses of the Fetal Bladder."

Neal S. Birnbaum, associate clinical professor, medicine: Elected president of the California Society of Internal Medicine. He also has been named to the Council on Rheumatologic Care of the American Rheumatism Association and chair of the Medical & Scientific Committee of the Arthritis Foundation of Northern California.

Beth A. Conklin, doctoral candidate, medical anthropology: Awarded a Charlotte W. Newcombe Doctoral Dissertation Fellowship by the Woodrow Wilson National Fellowship Foundation to complete her work on "Ethnomedicine & Tribal Religion Among the Wari Indians of Northwestern Brazil."

Eliseo Perez-Stable, assistant professor, medicine: Named one of three recipients nation-wide in the Henry J. Kaiser Family Foundation Faculty Scholar Program in General Internal Medicine. The award includes a three-year grant of $180,000 to study the cultural barriers to communication between Latino patients and non-Latino physicians.

Paul J. Wakeford, librarian & preservation officer: Named to the National Library of Medicine Taskforce on Permanent Paper.

Richard L. Oken, associate clinical professor, pediatrics: Elected chair of the board of directors, Alta Bates–Herrick Hospital. He is the first chair of the newly merged hospitals.

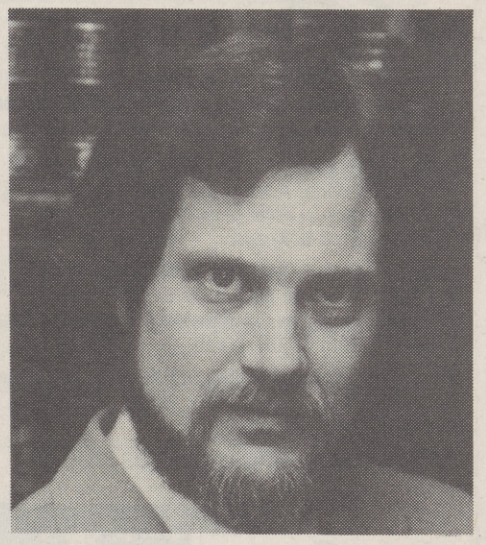

Richard H. Guy, associate professor, pharmaceutical chemistry & pharmacy; research associate, dermatology: Awarded the British Pharmaceutical Conference Science Award by the Pharmaceutical Society of Great Britain. He also has been named the first recipient of the 1988 Controlled Release Society Young Investigator Research Award.

Rudi Schmid, dean, School of Medicine: Elected to senior membership in the Institute of Medicine of the National Academy of Sciences. He also has been elected a fellow of the Royal College of Physicians of London.

Guenter B. Risse, professor & chair, history of health sciences: Awarded the William H. Welch Medal by the American Association for the History of Medicine for his recent book *Hospital Life in Enlightenment Scotland: Care & Teaching at the Royal Infirmary of Edinburgh* (Cambridge Univ. Press, NY, 1986).

Tom F. Lue, associate professor, urology: Awarded the Gold Cystoscope Award by the American Urological Association.

Julius R. Krevans, chancellor: Invited to be the featured speaker at the 1988 Industry Outlook Luncheon of the Bay Area International Biotechnology Exposition on Oct. 18.

Walter L. Miller, professor, pediatrics & Metabolic Research Unit: Selected to give the Edwin B. Astwood Lecture for Scientific Excellence by the Endocrine Society. He spoke on "The Molecular Biology of Steroid Hormone Synthesis" on June 10 in New Orleans.

Yuet W. Kan, Louis K. Diamond Professor of Hematology; professor, medicine, laboratory medicine, biochemistry & biophysics; head, genetics & molecular hematology: Awarded the American College of Physicians Award for outstanding work in medical science.

Ernest Newbrun, professor, oral biology, periodontology & stomatology; lecturer, biochemistry: One of four Americans awarded the degree of Doctor of Odontology *honoris causa* by the University of Lünd, Sweden.

In Memoriam

Edwin B. Boldrey, professor emeritus and former chair, neurological surgery. He came to UCSF in 1940 as an instructor in surgery and served the campus for 48 years. He was chair of the department from 1951-56, became professor in 1960 and emeritus professor in 1974. He was the winner of the prestigious Elliot Royer Award in 1971 and, in 1983, the Edwin B. Boldrey Lectureship in Neurolgical Surgery was established at UCSF in his honor. Boldrey was a pioneer in the clinical use of several modern techniques in brain surgery and it has been reported that he was the first surgeon to perform successfully a total excision of the pituitary gland. Donations may be made to the Edwin B. Boldrey Lectureship, Department of Neurological Surgery, UCSF, 94143-0112.

Florence Corsentino Webster. Affiliated with UCSF for more than 25 years, she developed programs for the Division of Continuing Education in Medicine and served as associate coordinator of Regional Medical Programs under cardiologist Elliot Rapaport. She later managed joint UC/VA research programs at VAMC-San Francisco under chief of research Thomas Bradley and then chief of staff Charles Carman until her retirement in 1983. A memorial fund has been established to purchase a gift for the new UCSF Library. Contributions designated in her memory may be sent to the UCSF Foundation, c/o Marilyn Johnson, Development Office, 100 Medical Center Way, SF, CA 94143-0248.

Dorothy Bradley, clinical social worker. An intregral part of the Social Work Department, she came to UCSF in 1972 as a social work assistant, becoming a clnical social worker in 1974. She was a winner of a UCSF Special Performance Award in 1984 and chaired the department's quality assurance steering committee. She was the wife of Freeman Bradley, director, UCSF Research & Development Laboratory.

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Leslie Aguayo, billing assistant II, growth & development.

Brad Forker, hospital laboratory technician II, transplant service.

Elaine Gutteridge, administrative nurse I, ambulatory care center.

Kelly Hardesty, staff research associate I, medicine.

Kathryn Holden, administrative assistant III, budget & reimbursement.

Brenda Macadaeg, administrative assistant II, nursing.

Mitusue McKenna, clinical nurse III, ambulatory care center.

From Russia with Glasnost

Amid the flashing of cameras and the whirring of video cams, 20 Soviet physicians paid a visit to UCSF on June 9 to learn, among other things, the latest cancer therapies and what's new in AIDS research and treatment. Above are a few members of the group intently listening to an interpreter describe current research on blinding eye diseases as they toured our new Beckman Vision Center and Koret Vision Research Laboratory, which opened June 1.

To Russia with Goodman and Kanas

"Prosit!" say Joel Goodman and Nick Kanas, toasting their upcoming trips to the Soviet Union. They have been selected, along with 14 others from the UC system, to be Faculty Exchange Scholars under an agreement between UC and Leningrad State University. Goodman, (left), professor of microbiology, will be in Leningrad this year from Sept. 25 to Oct. 25 and Kanas, associate professor and acting chair of psychiatry at the VAMC, will be there from July 9 to Aug. 19, 1989.

Women Needed for PMS Study

Women between the ages of 21 and 39 who have regular menstrual cycles are needed for a unique research project which will examine the role certain hormones may play in causing premenstrual syndrome. Women who suffer from PMS and those who do not are needed for this comparison study.

Researchers Linda L. Lewis, PhD, of physiological nursing, reproductive endocrinology fellow Ellen M. Greenblatt, MD, and Robert B. Jaffe, MD, chair of ob/gyn, will study what role beta endorphins in the brain may have in this puzzling health problem.

The women participants will need to keep track of symptoms (or lack of symptoms) every day for three menstrual cycles and will need to spend three 10-hour days at the Medical Center to have blood samples drawn intravenously. All women who complete the blood studies will receive $300 to cover expenses. Women must not be taking birth control or hormones. For further information call Linda Lewis at x69405.

Smoke-Free Questions???

Have any questions regarding UCSF's new "smoke-free" policy? Call the Smoking Policy Information Line at x65186, handled by Paula Schultz, assistant to the vice chancellor.

A Real Global Corps

Senator Milton Marks (left) lines up with Charles L. Frankel (representing Botswana) and Pierre Jordan (Switzerland) at a continental breakfast on campus last week cohosted by Marks and Chancellor Krevans. Twenty-five members of the San Francisco Consular Corps, representing consulates from around the world, attended the meeting where Chancellor Krevans spoke on UCSF's role in health care around the globe.

Today/Tomorrow

25 Saturday

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

27 Monday

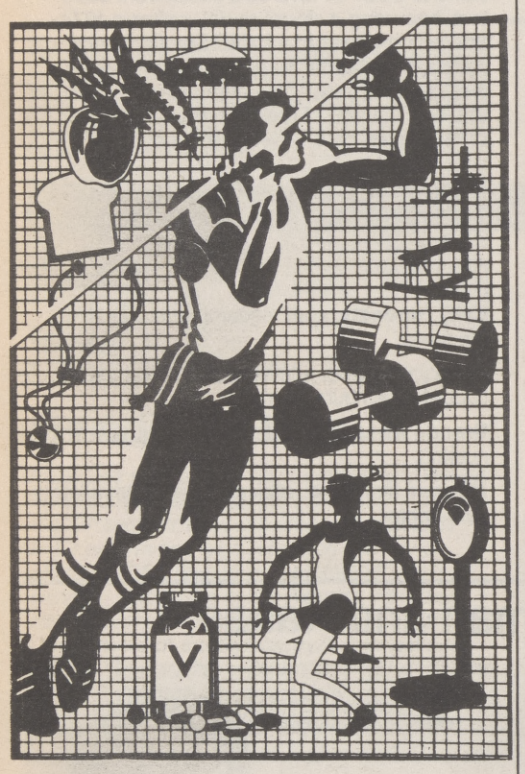

MOBILE MAMMOGRAPHY SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $40. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next four weeks:

- June 27-July 1: Richmond District, on 7th Ave. between Geary & Clement.
- July 5-8: Embarcadero, on Drumm St. between Sacramento & Clay.
- July 11-15: On Taraval St., between 17th & 18th Aves.
- July 18-22: PG&E Corp., 77 Beale St., between Market & Mission Sts.

PRO RECREATION REGISTRATION JUNE 27, 28

Registration for summer '88 recreation programs begins on the following dates:

Mon., June 27: UCSF students & Millberry Union members.

Tues., June 28: UCSF employees & general public.

Register at MU central desk, 7 a.m.-7 p.m. Registration will continue after June 28 at the athletic desk 8 a.m.-8 p.m. Call x61115 for availability of classes. Classes begin first week in July.

MED FILM FEST JUNE 27-30

Award winning films from the John Muir Medical Film Festival. Featured at each showing are *Health Messages for Young Children with the Pickle Family Circus.* Toland Hall. (For details see article on page 1.)*

- Mon., June 27: *AIDS: A Report* and *Ten Good Things About Barney.* Noon-1 p.m.
- Tues., June 28: *Young at Heart* and *Energy for All Reasons.* 5:30-6:30 p.m.
- Wed., June 29: *Alcohol & Cocaine: The Secret of Addiction* and *A Day Away from Stress.* Noon-1 p.m.
- Thurs., June 30: Special UCSF Retiree's Program. *Young at Heart* and *Ten Good Things About Barney.* 10:30 a.m.-noon.

OTOLARYNGOLOGY CONFERENCE: *Reconstruction of the Head & Neck.* Bernard Alpert, Plast. Surg. *Reconstruction of Facial Defects.* C. Patrick Hybarger, Oto. S 214. 8-10 a.m.

JEWISH WOMEN'S SUPPORT GROUP: For Jewish women working or studying at UCSF. Noon-1 p.m. Call x65836 for location.

OVEREATERS ANONYMOUS MEETING: N 417. 12:10 p.m. Call Janet, x61504.*

LESBIAN SUPPORT GROUP. C 130. 1-2 p.m.

*Open to the public.

28 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th Fl. A. 8 a.m.

CVRI SEMINAR: *Respiratory Distress Syndrome/ PPG Conference: Adrenergic Influence on Lung Fluid Secretion in Fetal Lambs.* Dale Chapman, CVRI. L 1361. 8-9:30 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Farewell Talk on His Experiences over the Past Four Years.* Chief resident Calvin Lee, Oral & Maxfac. Surg. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *The Pediatric Retina.* Bill Good, Ped. Oph. & Psychr., SFGH. Carr Aud., SFGH. 8-9:30 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

WOMEN WRITERS LECTURE SERIES: Opal Adisa Palmer, author, *Bake-Face & Other Guava Stories & Pina, the Many-Eyed Fruit*, reads her Jamaican poetry. Toland Hall. Noon-1 p.m.*

RADIATION ONCOLOGY RESEARCH LABORATORY SEMINAR: *Molecular Mechanisms of Chromosomal Aberrations.* Peter Bryant, Molec. Bio. CED 200. Noon.

NEONATAL MORBIDITY & MORTALITY CONFERENCE: John L. Kitzmiller, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

BIOCHEMISTRY & BIOPHYSICS LECTURE: *Muscle Formation in* Caenorhabdites elegans. Bob Waterston, Genetics, Washington U. HSW 301. 4 p.m.

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

29 Wednesday

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Michele Hinojosa, coordinator, x61662.

DERMATOLOGY CONFERENCE: *Dysplastic/Congenital Nevi.* Jeffrey Schneider & Mary Williams, Derm. HSW 301. 8 a.m.

NUCLEAR MEDICINE SEMINAR. L 340. 8:30-9:30 a.m.

BROWN BAG LECTURE SERIES: *Diabetes: Implications for Your Health.* Carl Grunfeld, Med. HSW 300. Noon. Simulcast to SFGH, Carr Aud. & CED, 3rd Flr. Commons Rm. Videotapes available for viewing in HSE 345, SIMA unit, UCSF Library. Call x64394.*

HIV+ SUPPORT GROUP: An anonymous weekly group for UCSF employees who have tested HIV positive but have not developed symptoms of AIDS or ARC. Noon. Call facilitators Marty Kortebein or Bruce Flynn, x62621.

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

VASCULAR SURGERY GRAND ROUNDS. 7 Long Solarium. 4-5:30 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. L 1361. 4:30-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

30 Thursday

MEDICAL GRAND ROUNDS: *Clinical Implications of Multi-Antiarrhythmic Drug Therapy.* Luke Hondeghem, Med. & Pharmacol., Vanderbilt. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PRIMARY CARE LECTURE SERIES: *Immunizations.* Eliseo Perez-Stable, Med. & Psychr. *Legal Medicine.* Dan Tennenhouse, Fam. & Comm. Med. A 455. 10 a.m.-noon.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

NEURO-ONCOLOGY TUMOR BOARD. L 34. 12:30-1:30 p.m.

HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *New Liposome Formulations with Prolonged Circulation Time & Enhanced Uptake by Tumors.* Alberto Gabizon, Bio., CRI. M 1296. 1:30-2:30 p.m.

NEURORADIOLOGY CONFERENCE. HSW 303. 4-5 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

PRIMARY CARE GRAND ROUNDS: *Evaluation & Management of Vulvar Lesions.* Jeannette Brown, Ob/Gyn. A 455. 4:30 p.m.

UROPHYSIOLOGY CONFERENCE: *Scrotal Pathology.* Eugene Cattolica, Uro. M 460. 4:30-6 p.m.

RADIATION ONCOLOGY CHAIRMAN'S RESEARCH CONFERENCE: *Physics of Radiosurgery.* Michael Schell & Vernon Smith, Rad. Onc. L 34. 5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI A116. 6 p.m.*

1 Friday

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Eukaryotic Transcription: Properties of Pre-Initiation, Initiation & Elongation Complexes.* Donal Luce, Biochem. & Molec. Bio., U Cincinnati. HSW 301. 4 p.m.

NEUROLOGY GRAND ROUNDS: *Mesial Temporal Sclerosis.* Kenneth D. Laxar, Neuro. S 664. 4:30-5:45 p.m.

6 Wednesday

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Michele Hinojosa, coordinator, x61662.

NUCLEAR MEDICINE SEMINAR. L 340. 8:15-9:15 a.m.

LAS MUJERES: A support group for Latina faculty, staff & students. Noon. For location call x65836.

HIV+ SUPPORT GROUP: An anonymous weekly group for UCSF employees who have tested HIV positive but have not developed symptoms of AIDS or ARC. Noon. Call facilitators Marty Kortebein or Bruce Flynn, x62621.

BROWN BAG LECTURE SERIES: *Secrets of Achieving Financial Independence.* Stuart M. Purcell, CPA. HSW 300. Noon. Simulcast live to SFGH, Carr Aud. & CED, 3rd Flr. Commons Rm. Videotapes available for viewing in HSE 345, SIMA unit, UCSF Library. Call x64394.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1-3 p.m.

VASCULAR SURGERY GRAND ROUNDS. 7 Long Solarium. 4-5:30 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. L 1361. 4:30-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

7 Thursday

MEDICAL GRAND ROUNDS: *Update on AIDS.* David Chernoff, Med. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *The Practice of Occupational Medicine.* Thomas Herington, Occup. Med. S 30. 9 a.m.

PRIMARY CARE LECTURE SERIES: *The Intern Neuro Exam.* Dan Lowenstein, Neuro. *MediCal/ Medicare-National Health Insurance.* Joseph Barbaccia, Fam. & Comm. Med. A 455. 10 a.m.-noon.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

DOMESTIC VIOLENCE IN ASIAN FAMILIES

The Silence Is Broken: Let's Open the Doors. Social worker Becky Masaki, Asian Women's Shelter Program. Toland Hall. Noon-1 p.m.*

NEURO-ONCOLOGY TUMOR BOARD. L 34. 12:30-1:30 p.m.

HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *Bone Marrow Monosomy 7: Is Myelodysplasia Due to Inactivation of a "Recessive Oncogene"?* Kevin Shannon, Ped. M 1296. 1:30-2:30 p.m.

PRIMARY CARE GRAND ROUNDS: *Screening Following Detection & Treatment of GI Disorders.* Charles Reese, Med. A 455. 4:30 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI A116. 6 p.m.*

PLASTIC SURGERY LECTURE/DINNER MEETING: *Reconstructive Surgery in Tetraplegia.* Rodney Hentz, Plast. Surg. Faculty Alumni House. Dinner 6 p.m. Lecture 7 p.m. $20. Call x63061.

8 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

SFGH NUCLEAR MEDICINE/RADIOLOGY CONFERENCE. Rm. 1X58, SFGH. 7:40-9 a.m.

SPECIAL SUMMER BLOOD DRIVE

Due to the urgent need for blood during the summer months, Irwin Memorial Blood Bank's mobile van will be parked on Parnassus between Millberry Union and the Clinics Building, 8 a.m.-5 p.m. Please bring personal identification.*

PULMONARY PHYSIOLOGY SEMINAR: *Respiratory Muscles.* Richard Sankary, Med. L 1361. 8-9:30 a.m.

CHILDREN'S SUMMER FILM SERIES: *Snow White & the Seven Dwarfs.* Cole Hall. 10 a.m., 1:30 & 6:15 p.m. Children under 12 & accompanying adult(s) $2; UCSF students, seniors, & MU members $2.50; general $3. Group rates available for first two shows if requested in advance by calling x62542. Seating for first two shows is limited, so please arrive at least one-half hour before showtime. For further information call x62571.*

CIRCLE OF SISTERS: Weekly support group for black women working & studying at UCSF. C 130. Noon-1 p.m.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

June 25-July 22, 1988

9 Saturday

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

UROLOGY GRAND ROUNDS: Clinical presentations and D & C reports. HSW 300. 8:30 a.m.-10 a.m.

11 Monday

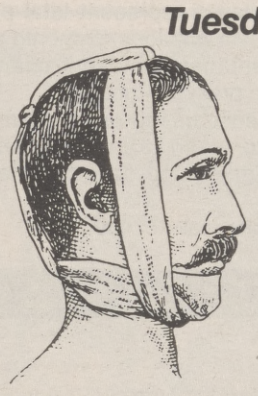

JEWISH WOMEN'S SUPPORT GROUP: For Jewish women working or studying at UCSF. Noon-1 p.m. Call x65836 for location.

OVEREATERS ANONYMOUS MEETING: N 417. 12:10 p.m. Call Janet, x61504.*

LESBIAN SUPPORT GROUP. C 130. 1-2 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Medical Malpractice: Laboratory Aspects.* David Rubsamen, malpractice consultant. L 535. 4-4:50 p.m.

12 Tuesday

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Principles of Wound Care.* William Lineaweaver, Plast. Surg., R.K. Davies. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Cnfr. Rm., 6th Fl. A. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS. Carr Aud., SFGH. 8-9:30 a.m.

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 3:30 p.m.

NEUROLOGY GRAND ROUNDS: *Stroke Therapy with Tissue Plasminogen Activator.* Justin A. Zivin, Neurosci., UCSD. S 664. 4:30-5:45 p.m.

13 Wednesday

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Michele Hinojosa, coordinator, x61662.

DERMATOLOGY CONFERENCE: *Photobiology of UVA & Suntan Salons.* John Epstein, Derm. HSW 301. 8 a.m.

NUCLEAR MEDICINE SEMINAR. L 340. 8:15-9:15 a.m.

HIV+ SUPPORT GROUP: An anonymous weekly group for UCSF employees who have tested HIV positive but have not developed symptoms of AIDS or ARC. Noon. Call facilitators Marty Kortebein or Bruce Flynn, x62621.

BROWN BAG LECTURE SERIES: *AIDS in the Workplace.* Julie Gerberding, Med. HSW 300. Noon. Simulcast live to SFGH, Carr Aud. & CED, 3rd Flr. Commons Rm. Videotapes available for viewing in HSE 345, SIMA unit, UCSF Library. Call x64394.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1-3 p.m.

MELVYL/MEDLINE TRAINING

UCSF Library now offers daily hour-long training sessions on using the MELVYL Online Catalog to search the MEDLINE database as well as Thursday seminars on basic MELVYL. Sign up at the main library entrance. Classes in HSE 245. Call x62377 for more information.

Benefits/Personnel

Should You Switch Your Voluntary Contributions to a Safer Fund? Maybe, Maybe Not

Ever since the stock market fluctuations began last fall, people have been asking, "Should I switch my Voluntary Contribution Plan money from the UC Bond and Equity funds to a safer fund?"

Jerry Neal from the Office of Financial Planning and Benefits has provided the following response:

There is no one right answer to this question, but there are some general rules that can help you decide whether or not the Equity and Bond funds are right for you. This discussion focuses on UC-managed funds. However, the same reasoning also applies to stock and bond funds in the 403(b) plan managed by Fidelity Investment Company and Calvert Group.

Both the Bond and Equity Funds exhibit volatility. This means their market value fluctuates up and down over time as economic conditions change. For example, it is well known that the market value of long-term bonds increases when market interest rates fall, and decline when market interest rates increase. This volatility creates risk for an investor.

As an investor, you should consider investing (or remaining) in a volatile position only if you meet the following two conditions: (1) You are planning to hold that investment for the long term (i.e. five years or more), and (2) you can emotionally accept the short-term price swings in the investment (i.e., you can sleep at night).

If you think you may need to use the money invested in the Equity or Bond fund within the next five years, you probably cannot afford to accept the risk of volatility inherent in these funds. This is because the value of your investment may be depressed at exactly the time you expected to use it. In this situation you would have been better off to have accepted a relatively lower yield in return for more certainty that your original investment would be there when you needed it.

The five-year period is named here because it represents the average duration of the business cycle. However, given the recent long-term expansionary phase of our economy, you might consider 7 to 10 years as a minimum holding period. If you can wait out the business cycle, chances are your stocks or bonds will be able to recover any value they have lost.

However, even if you can leave the money invested for 20 years, these funds are inappropriate for you if their periodic decreases in value create fear or cause you to feel anxious about your investment dollars.

Some investors may be in the Equity or Bond Fund because they feel it is the best investment now, but they plan on switching intro another fund when economic conditions change. This is a very difficult strategy to use successfully.

The UC Voluntary Contribution Plan is designed to be a long-term retirement plan. Consequently, it is not set up to allow frequent investment changes on short-term notice. For example, you can only make one switch every three months. Futhermore, although the stock and bond markets are subject to extremely rapid fluctuation, a transfer request may take eight days to six weeks to be executed after it is received by UCRS. This is not the best investment environment for a "market timer." (Fidelity offers more rapid switching capabilities, but this is beyond the scope of this discussion.)

Therefore, if you are a long-term investor who can tolerate the short-term volatility in these markets, the Bond and Equity Funds may be right for at least a portion of your retirement funds. Historically the stock and bond markets have outperformed the shorter-term fixed income markets over the long term. Unfortunately, there is no free lunch. The price for increased potential rate of return is increased volatility.

If you think you need to discuss your personal situation with the financial planning office, call x69256.

Workshops for A&PS Supervisors

Personnel is offering several workshops during July, August and September on conducting performance evaluations using the new A&PS forms. The workshops are free, and offered exclusively for supervisors and managers of A&PS employees. If you didn't get the flyer with the dates and application form, call Development and Training, x64032.

How are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of May 31):

- *Accumulation Unit Values*

Equity Fund: $48.14 (−9.86%)* (.5%)**
Bond Fund: $30.47 (2.11%)* (−1.9)**

- *Monthly Factors*

Savings Fund: .0072 (9.00%)***
Money Market Fund: .0067 (8.33%)***
GIC Fund: .0075 (9.37%)***

*Percentages represent total percentage increase over previous 12-month period.

**Percentages represent change in unit value from previous month.

***Percentages represent the most recent returns expressed as an annualized rate. The money market and savings rates change monthly.

Questions, call x61400.

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and in the main lobby of Moffitt Hospital.

Personnel Assistant II - Supervisor (CX). Personnel: Employment Division - 1350 7th Ave. #V-S26504. $1,837-$2,192. Filing Deadline: 7/6/88.

Senior Library Bookmender/Library Bookmender (SX). Library. #V-H62090. $10.56-$12.60/Hr. Or $8.17-$9.48/Hr. Open Until Filled.

Billing Assistant I (CX). Urology. #M-F51123. $1,618-$1,917. Filing Deadline: 6/29/88.

Senior Clerk (CX). Labor Relations - Laurel Heights Campus. #V-S59120. $1,422-$1,650. Open Until Filled.

Sports Assistant (SX). Millberry Union Outdoors Programs. #V-H56689. $7.59-$8.80/Hr. Open Until Filled.

Administrative/ Professional

Manager, Systems Software. Hospital Information Systems- CED. $39,000-$58,500. Filing Deadline: 7/20/88. Apply to: Ms. Catherine Pedersen.

Principal Auditor II (Audit Manager). Internal Audit - CED. $39,000-$58,500. Open Until Filled. Apply to: Ms. Elenor Shimosaka.

Programmer/Analyst III. Anesthesia. #H-A61231. $3,196-$3,857. Open Until Filled.

Senior Administrative Analyst (Production Control Manager). Hospital Information Systems - CED. #H-P51306. $2,842-$3,428. Filing Deadline: 7/6/88.

Management Services Officer II. Accounts Receivable-Outpatient Billing Unit - CED. #H-A55253. $2,590-$3,428. Open Until Filled.

Administrative Analyst. Capital Planning. #V-B20349. $2,358-$2,842. Open Until Filled.

Administrative Analyst. Dentistry. #V-B52866. $2,358-$2,842. Filing Deadline: 6/29/88.

Social Services—Community

Social Work Associate. Psychiatry:AIDS Health Project - SFGH. #V-W55209. $10.39-$12.37/Hr. Open Until Filled.

Social Work Associate. Psychiatry:AIDS Health Project - SFGH. #V-W59895. $10.39-$12.37/Hr. Open Until Filled.

Inpatient Nursing

For more information on the following positions, call nurse recruiter Lynda Purves, x62252.

Clinical Nurse II. Acute Medicine. $15.48-17.80/hr.

Clinical Nurse II. Neurosurgery/Neurology. $15.48-17.80/hr.

Clinical Nurse II. Pediatric Intensive Care Unit. $15.48-17.80/hr.

EMPACT!

Talk about good, wholesome group outings: Many members from the dental faculty practice staff were treated to a Giants game after dentist Joel White won 10 free tickets in EMPACT!'s recent raffle. Other winners: Ernestine Dillon from the anesthesia billing office, Edmond Lee from the echocardiography lab and Cindy Nix from the UCSF Fresno Office.

Get a Group Together and Go, Says EMPACT!

You heard the trend is toward good, wholesome fun? EMPACT! has some fine ideas for staff or family group outings: (Pick up tickets for the following at the MU Central Desk).

- **Giants versus Chicago Cubs,** Tuesday, July 5, 7:30 p.m. Lower reserve seats, Section 6, rows 15 through 19. Tickets: $6.50 (regular $8).
- **Oakland A's versus Milwaukee Brewers,** Tuesday, June 28, 7:30 p.m. Plaza seats, $7 (regular $8). All proceeds benefit children with sickle cell anemia.
- **Olde San Francisco Faire,** Pier 17, weekends, July 2 through August 14. Adults $8 (regular $12); children 12 and under, $4.50.
- **Great America,** three weekends in July: July 2-4, July 9-10, July 16-17. Adults, $9.25 plus $1 surcharge (regular $15.95), children $7.25 (regular $7.95). Each ticket is for one admission for any one date.
- **Marine World** and other California amusement parks. Big discounts available. Call x66932 or see EMPACT!'s summer "Action Line" newsletter.

Meet Eunice Taylor, Champion Cook

The Med Center's Eunice Taylor recently entered her spicy Brazilian shrimp dish in a local international cooking contest and took first place—for the second year in a row!

Her colleagues in Environmental Services say they consider themselves lucky to have the opportunity to sample her dishes at departmental parties. The opportunity extends beyond staff potlucks, however. By day, Eunice works on 11 Moffitt, as she has for over 11 years. By night, she cooks jambalaya, paella, gumbos and South American stews at her colorful restaurant "Eunice" at 24th and Valencia.

She loves cooking in large quantities, she says, creating spicy dishes influenced by her native Brazil. Eunice grew up in Rio de Janeiro, spent her early career there cooking paprika-laden cuisine for a Czechoslovakian family, "and dreamed of moving to the United States one day." The opportunity to do so did arrive one day; thus, at age 37, she pulled up her roots and emigrated to San Francisco.

Twenty years later, although all her family remains in Rio, she's perfectly at home here. She has, as a matter of fact, carved out her own Brazilian niche in the neighborhood—partly through her cooking, but also through other community activities, such as her enthusiastic participation in the Mission's annual South American-style carnival. "Wait 'til they see my costume this year," she says. "It's straight from Brazil." Eunice recently returned from her biennial visit to her homeland.

Eunice in her Mission district Brazilian restaurant

Kerr at CED *(continued)*

● What are the parameters of the UC police service area? What is their policy in regard to intervening with streetpersons around CED? What can be done to stop jaywalking on Parnassus?

There are two ways to find the answers to these question: (1) Gemma Rieser will be sending out a summary of the discussions in the near future, which you should be able to find posted in your area; or (2) Talk to one of your colleagues who attended the meeting:

● **From Accounts Receivable:** Ernest Almario and Tim Arnold (Outpatient Follow-up), Daniel Alderson (Inpatient Pre-Billing), Joseph Ray (Inpatient Follow-up), Eva Vasques (Mail Remittance Cashiers), and Michael Graser (Data Control)

● **From Budget and Reimbursement:** Edna Dea

● **From Hospital Accounting:** Shirley Tom (Payroll) and Susan Andrews (Administration)

● **From HISD:** Richard Schaffner, Gary Aldrich and Adele Goldman (Systems Implementation); Lisa O'Gorman (Computer Operations), Enrique Zayas (Telecommunications), Jim Grubb (Systems Software), Gilbert Acevedo (Production Control) and Gail Chapman (Data Entry).

Good-bye, Good-bye

The scenes above and to the right are from two standing-room-only farewell parties for a couple of much-to-be-missed Med Center guys: Above, ACC building services manager Bob McMullen and his wife Ruth shortly before leaving SF to return to their roots in Columbus, Ohio; and at right, Med Center deputy associate director Tony Wagner and his wife Benny shortly before leaving SF for a leisurely vacation—after which Tony will settle into his new job as director of Laguna Honda Hospital.

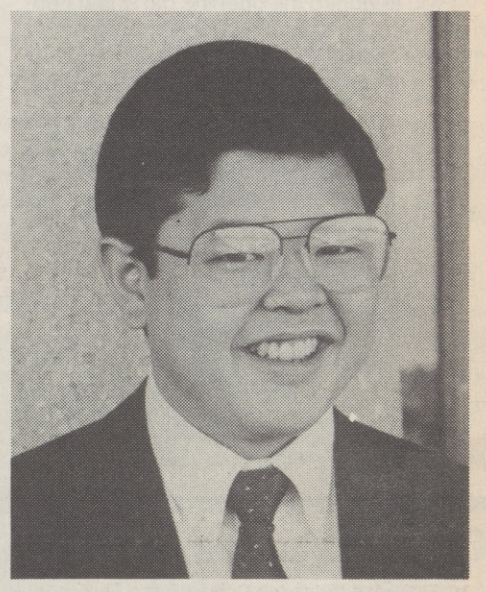

Hello

Next time you're shopping in the Beartique, extend your congratulations to Maryanne Caramanica. She's just been named manager of the gift shop.

If you remember from an article on Maryanne in *Medsounds* last year, the new manager comes with remarkable qualifications. She has a master's in fine art and 30 years of experience in interior design. She headed the design department for a large furniture store in Pennsylvania, she helped her sister run two gift shops, "Articles and Old Lace," in Chicago, and she played a big role in the opening of the new Beartique a year ago.

Furthermore, she's an experienced buyer and a crack window dresser. In fact, if you happen to pass by the Beartique on a Sunday afternoon, you'll more than likely see Maryanne in the window, creating the coming week's display. In August, Maryanne will be a featured speaker at a gift show symposium in Sacramento sponsored by the California Association of Hospitals and Health Services. Her topic: "A Window a Week."

Hello

If you have come to know Phil Yamahiro during his Pew management fellowship here at the Medical Center, no doubt you were feeling remorse about his tenure coming to an end the first of July. Good news: Phil has just been named assistant administrator for management services for ACC, a position he'll officially assume the day his fellowship ends.

Phil commenced the prestigious fellowship almost two years ago, following the completion of master's degrees in philosophy and business administration from the University of Chicago and a residency in hospital administration. Among his projects here, he served as interim administrative director for the Department of Anesthesia and took a major role in the development and construction of the Ambulatory Surgery Center. In his new position, he will oversee ACC building services, clinic supply and optical dispensary; and provide ACC data analysis.

You Need a New Purse

The prize for the Beartique's June drawing is a leather handbag. The way you become eligible to win this prize is to spend $5 or more in the gift shop. Every time you do so, your name will go into the hat for a drawing at the end of June.

The winner of the May prize—the brass fish for Father's Day gift-giving—was plastic surgeon To-Nao Wang. The April prize winner was Administration's Kim Kleeh. She won a box of chocolates, which she did not eat, but gave to her mother on Mother's Day.

P.S. If this paper reaches you on Friday, June 24, be it known that the Beartique summer clearance sale extends through the end of the day today. On Monday, June 27, they'll be closed for inventory.

Like Kids? Pediatric Program Needs Volunteers

You may have read about the new Pediatric Preadmission Program in the last issue of *Medsounds.* The sponsors are anxious to get going with the program, but a few good volunteers are needed to help out. The job would involve assisting the Child Life Services and nursing staffs put on preadmission programs to acquaint pediatric surgery patients and their families with the hospital. For more information, call Child Life Services, x62603.

Remember the Opinion Surveys We Took in February?

The results of the most recent Employee Opinion Survey have been tabulated and distributed, and if your manager has not already brought them up for discussion, you can look forward to this happening extremely soon. The plan is for each department or unit to pick out two areas for improvement based on these results; and then to develop plans of action for realizing these improvements.

Water Wise

Although hospitals are exempt from water conservation ordinances, the Medical Center is doing a number of things in coordination with the campuswide program:

● Fixing leaky water shutoffs or valves

● Installing water saving kits in toilets and flow restrictors in faucets; fixing or replacing shower head water restrictors as needed

● Reducing outdoor irrigation and ceasing to use water for cleaning walks, driveways and loading dock

● Checking air conditioners for proper operation

You personally can take part in this effort by reporting any leaky faucets or other culprits of water waste to Building Management, x64073; or to the respective building managements in ACC, CED and Oyster Point. Furthermore, it won't hurt to check out the campus guidelines on page one.

Snazzy New Patient Education Materials

Med Center publications coordinator Dennis Piper has put together a fine set of materials for printing patient education items. The set includes pre-printed folders and stationery in two sizes headed "Your Health Matters." Watch for the memo from Dennis' office regarding availability, use and ordering.

103 OR Staffers Honored for Longevity

Ten years is a long time to wait for a service award pin. The OR, therefore, has a new program in which staff members are honored for faithful service after three years. Of the 180-member OR staff, 103 have met the three-year mark or more, and thus were awarded their pins at a reception last week marking the program kick-off. Four of the honorees included (left to right) Mary Zamboukos (6 years), Dennis Sung (11 years), Joe Young (10 years) and Tracey Wake (7 years). That's Jane Hirsch helping Dennis with his eleventh finger.

UCSF Medsounds

Volume 3, Number 13 June 25-July 22, 1988

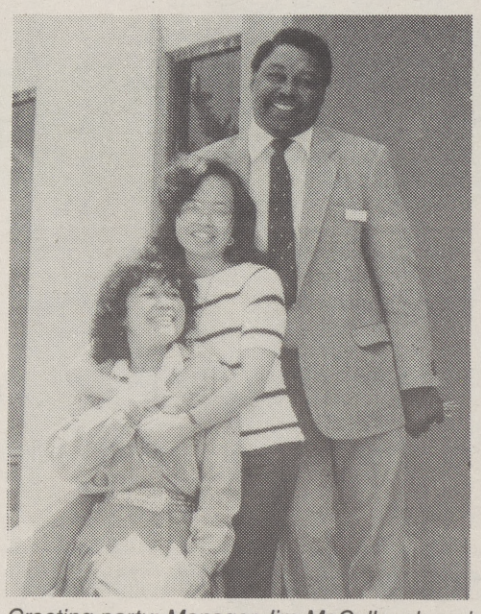

Our Beautiful Laundrette

This issue of *Medsounds*, we'll finally make good on a promise: To take you inside the new laundry at Oyster Point.

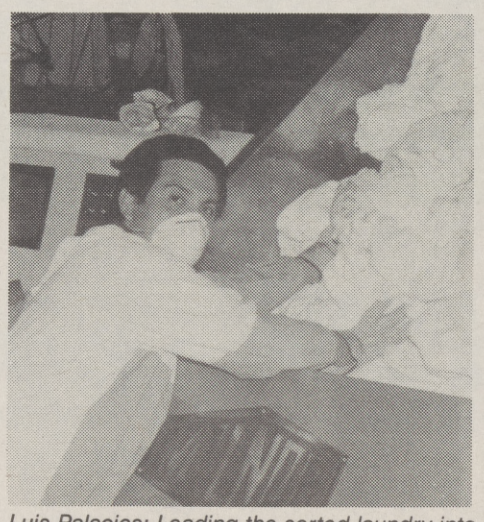

Earlier this year, the entire staff moved from the old location behind Long Hospital to the impressive new 38,000 square foot (fog-free) headquarters installed with towering computer-automated equipment. The new location is more than twice as big, with the capacity for handling twice the load possible in the former location.

The plan, says manager Jim McCullough, is that once they're able to run at full capacity (they're still in a bit of a transition), they intend to take in laundry from the outside, probably from smaller health institutions. Of course, that will be in addition to providing all the laundry and linen services for this entire campus, about 3,000 pounds an hour of everything from towels to lab coats.

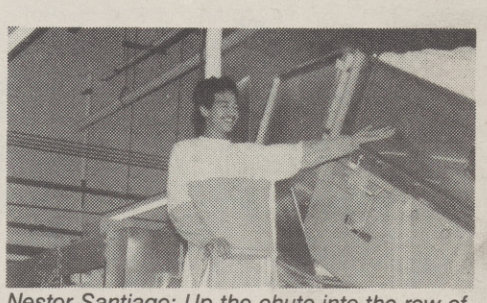

If you attended the opening party last February, you saw how things looked before they moved in and cranked up the machines. Now catch a glimpse of the operation in full swing:

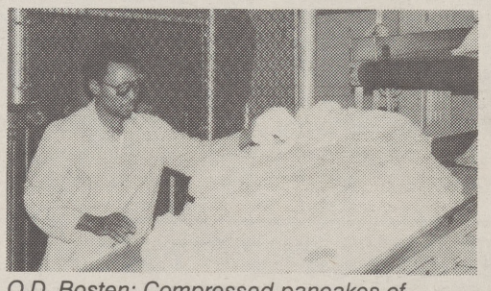

Greeting party: Manager Jim McCullough and office staff Christina Woo and Lisa Perry

Luis Palacios: Loading the sorted laundry into the chute. The computer to the left controls not only all the conditions—soap, water, etc.—for each type of laundry, but also the automatic procession of the laundry from washers to dryers.

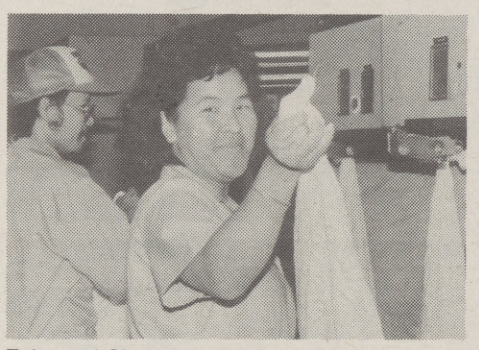

Nestor Santiago: Up the chute into the row of giant washers.

O.D. Bosten: Compressed pancakes of washed laundry ride up the ramp to dryers.

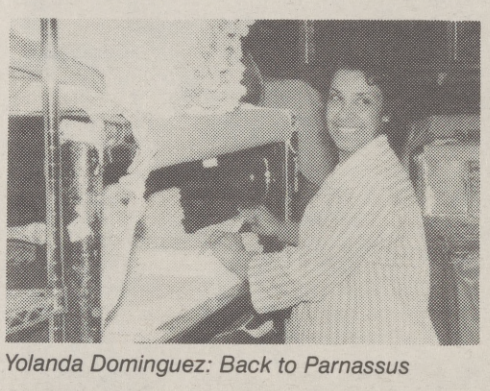

Marcus Edwards: Out of the dryer

Zeke and Cindy Romingquet: Into the ironer

Linda Ashbury: Out of the presser

Yolanda Dominguez: Back to Parnassus

CED Asks Bill Kerr: How Will No-Smoking Policy Be Enforced?

A hot topic at the June 9 "Meet the Director" meeting between CED employees and Bill Kerr was the new no-smoking policy. Is it fair? How will it be enforced? What about the time lost for smoking breaks, especially considering the condition of the CED elevators (very impaired), and how long it takes to get downstairs and back again?

As a former smoker, said Bill, he understands the frustrations some employees may be feeling in regard to the new policy. "The policy was long deliberated by a group representing all parts of the campus and both smokers and non-smokers. It was finally established in the interest of health, both for those personally associated with the campus and as a strong statement against smoking issued by a health sciences institution. When the committee looked at establishing smoking areas, they weren't able to define any appropriate locations; nor did they find it fair or feasible to start drawing lines on who could or couldn't, according to location. Therefore, the 'across the board' policy was established."

As far as enforcing the policy, Bill said that based on the experiences of other institutions —and based on widespread support from within our own institution—he thinks enforcement largely will take care of itself. Managers and supervisors basically are responsible for enforcement, and violations will be handled just like any other policy violations. However, peer pressure is very effective and, as far as he's concerned, appropriate. In other words, if you see someone smoking inside the building, speak up.

There may be touchy situations, such as a case where a supervisor is not enforcing the policy, but employees don't feel comfortable bringing it to the attention of their boss' boss. To deal with situations such as this, a Smoking Policy Information Line, handled by Paula Schultz in the Office of the Vice Chancellor-Personnel and Student Services, is available at x65186.

In regard to the question on time loss, Bill conceded that certain consequences of the new policy will need working out. But the policy exists; there are a number of good reasons for having established it; and the intention is to find solutions to any associated problems.

What else was discussed besides smoking? Elevators. In fact, the conversation kept coming back to the fact that the elevators at CED are a major cause of stress and contention. Bill said that despite appearances, Med Center Administration has not made any commitments to ignore the CED elevator issue and he'd see what he could do to influence the CED building management to improve the situation.

Other discussions:

- What is our water conservation plan? (see page one for more information)
- Is there any kind of formal recycling effort on campus?
- Has MediPac improved the billing system?
- How will we be affected by this new partnership between Mt. Zion and UCSF? (See story on page 2.)
- How can we help soothe patients' preadmission anxieties?
- When will we see the results of the employee opinion survey?
- Is UCSF planning to buy CED (so we can take control of the elevators and other issues)?

(continued on page 7)

Couriers Pinch-Hit During Tube System Renovation

Over the next several weeks, the pneumatic tube system is being completely overhauled to make it more streamlined and dependable. In the course of the renovation there will be intermittent shutdowns, during which couriers will transport all the items you normally send via the tube system. Go ahead and use the system like you always do until you get notice of a shutdown.

When the shutdown does take place in your area, gold-jacketed couriers will check your tube station every 17 to 20 minutes around the clock. The couriers will pick up and deliver full tubes, and deliver empty tubes back to your station.

Stat requisitions for Materiel Services will be available by pager #741; stat pharmacy items, both for pick-up and delivery, x62477.

Contact x61395 or x62296 for problems or questions during shutdown periods.

Beginning July 1: New Security Measures

Security, that perennially favorite topic of discussion at "Meet the Director" and other employee-attended meetings, is taking on new dimensions in the Medical Center. Building Management interim director Julie Buhler brings news of several new security measures being implemented—not in reaction to any specific incidents, she says, but as a part of a strengthened preventive program in response to staff concerns. Julie can be reached at x63826 if you have questions or concerns about any of the following.

As reported last issue, the Emergency Room is now the sole entrance and exit for the Medical Center from 11 p.m. to 6:30 a.m. Beginning July 1:

- From 11 p.m. to 6:30 a.m. every day, a personal safety officer will be stationed at the ER entrance to monitor all employees and visitors entering the Med Center at night. Help the officer be effective: Wear your name tag as you come and go.
- The night shuttle service is being modified to minimize waiting time and provide a safer waiting area. A complete list of these modifications will be ready for the next issue of *Medsounds*, but for now, here's what will happen beginning July 1:

(1) After 11 p.m., the night security shuttle service pick-up will be relocated to the ER parking lot.

(2) Between 5 p.m. and midnight, there will be an "express bus" in addition to the regular security shuttle. To accomplish a 15-minute turnaround, the express shuttle will stop only at the following locations: Kezar parking lot, Surge parking lot and married student housing. The second shuttle will continue to operate as it does now, taking passengers to their cars within a mile radius of campus (and the Turk Street housing by request) from 5 p.m. to 3 a.m. After 3 a.m., the service is by request only, by calling x61414.

The personal safety officer patrol will continue to maintain high visibility in the hospital, but you can further their efforts by immediately reporting the presence of any questionable person or activity. Call x61414 with questions or to report non-emergency situations; x61110 in an emergency.

Remember this Remarkable Story?

Remember the story in the September '87 UCSF Magazine *about Catrina Hebert, who arrived here 26 weeks pregnant—and dangerously ill with leukemia? Catrina agreed to a modified course of chemotherapy, and, with her disease in remission, gave birth to a healthy baby boy. Six weeks later she returned for an experimental bone marrow transplant using her own bone marrow. Less than a year later, here are Catrina and her son Nicholas, back for a visit with 11 Long's Helen Benedetti (left) and Janet Ryvlin. Both mom and son are doing fine.*
